

MOC2021 Mode of Presentation

Oral Presentations

- The time allotted to each oral presentation will be:
 - ✓ Plenary talks: 45 min.
 - ✓ Invited papers: 30 min. (including discussion)
 - ✓ Regular papers and Post-deadline papers: 15 min. (including discussion)
- The oral presentation sessions are held in an all-virtual format.
- The online oral presentations are given live via Zoom Meeting, with presentation slides being shared.
- The speakers should check if their internet connection and sharing of presentation slides work in the break time just before the session.
- All the oral presentations are recorded on Zoom, and the recorded videos will be available on YouTube for the participants only.

Poster Presentations

- Each poster presentation will be given at a Zoom Meeting Breakout room, which is set for each presenter.
- The poster session is held online from 19:20 to 21:00 JST on Tuesday, 28th September, 2021.
- For the convenience of the participants, the presentation time is divided into two periods. The first period (19:20-20:10 JST) is for authors with the paper in even-number (PO-02, P-04, ...), and the second period (20:10-21:00 JST) is for authors with the paper in odd-number (PO-01, P-03, ...). The presenters should remain in their own Breakout room for discussions during their core time.
- Posters should be a one-page PowerPoint slide with the MOC2021 logo in wide screen size. Please use the poster template (pptx) if you need it.
- The presenter presents your research and discusses it with the participants by shares their poster on Zoom.
